The Toofaan Games were launched in 2019 by Naandi Foundation to unleash a storm of untapped potential from India's girls. 186,000 underprivileged girls from 6000 villages across India participated in the latest edition of this athletic competition in 2022. After intense rounds of village-level, district-level and zonal-level games, the national finals were held in Hyderabad on 30 and 31 March, 2022, where 127 girls competed across various athletic events.
